DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Samuel Giles and Christopher Smith on 17 February 2006.

The application has been amended as follows: in claim 2, replace section (e) with the following:

"(e) onboard module comprising vehicle sensors for detecting vehicle tampering within specific sensor zones, controller processing unit, memory unit, timer, antenna, input interface switches, input interface, output interface, transceiver and proximity detector."

Claim 3 has been amended to read as follows:

"The security system of claim 2 wherein said means for transmitting operational signals between said onboard control module and said wristwatch is done so by infrared/radio frequency."

Claims 4-10, 12, 13 and 21-23 are amended to depend from claim 2 instead of 2a.

Claims 14 and 16 are amended to depend from claim 2 instead of 2b.

Claim 17 is amended to depend from claim 2 instead of 2c.

Claims 19 and 20 are amended to depend from claim 2 instead of 2e.

Allowable Subject Matter

2. Claims 2-23 are allowed.

3. The following is an examiner's statement of reasons for allowance: with regard to independent claim 2 the prior art does not disclose nor suggest a vehicle security system that comprises a wristwatch with a hinged-body for operating and communicating with the security system having the specific claimed structure as laid out in claim 2. While some prior art does disclose a vehicle security system being controlled by a wristwatch, none of the prior art discloses or teaches the specific structure of the watch as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
